

## Signature Products

For over 160 years, Payan Bertrand has been producing and preparing premium natural ingredients for a wide customer base. Through all this time, the relationships developed at source, the expertise in securing supply, the development and constant improvement of production techniques, and the creativity and passion of successive generations of perfumers has allowed us to continue to pass on this wealth of unique knowledge in order to maintain the development of lasting speciality products, which are the signature of our family.

## Ethical Sourcing

Fully knowing the need for the best possible in-depth understanding of our ingredients, the use of the phrase "Ethical sourcing" indicates our deep knowledge of and alignment with our supply channels. Through extremely long-standing relationships with our partners allied with insistence on purchasing at source, the social, economic, and environmental factors associated with our products are fully recognized, and this strengthens the involvement and commitment of Payan Bertrand in our supply channels.
